

## Simplify your hearing conservation program with onsite hearing testing

Cintas has partnered with the nation's largest provider of on-site hearing testing, to help you protect your employees and comply with Federal Regulation.

### Onsite Hearing Testing:

- Half-day or full-day scheduling to fit your needs
- Convenient and customizable: testing only, testing & training, or the full-service option
- State-of-the-art equipment and testing processes for quality results
- Industry-leading CAOHC certified audiologists oversee the process and review results
- Accuracy is key. We'll automatic retest if a potential hearing loss is detected
- Free access to your own secure online compliance and reporting system

Cintas Training is intended to assist employers as they strive to improve and maintain workplace health and safety. Depending on the nature and location of the worksite, federal and state statutes and regulations may require that employers conduct specific training for their employees. Each worksite should be examined by the employer to determine which Compliance Training Programs the law requires for that specific worksite. Cintas does not provide recommendations or guidance regarding which safety programs and training are required for any particular workplace. The services are provided for educational purposes only. Cintas shall have no liability to customer or any other person relating to or resulting from the services or the information provided in connection with the services. Cintas will not be liable with respect to any decisions made by customer as a result of the training or in connection with services offered.

### FEDERAL REGULATIONS STATE:

#### CFR 1910.95(G)(1)

The employer shall establish and maintain an audiometric testing program as provided in this paragraph by making audiometric testing available to all employees whose exposures equal or exceed an 8-hour time-weighted average of 85 decibels.

# Help protect your employees with Hearing Conservation Training & Onsite Testing

According to the CDC, over 20 million workers are exposed to potentially damaging noise each year.

Not only can hearing damage affect your employees' on-the-job performance, but it can reduce the quality of their personal lives. Give your employees the knowhow to protect themselves with Hearing Conservation Training.

## Hearing conservation training agenda:

- The basics of hearing
- Warning signs of hearing loss
- Two major types of noise in the workplace
- Typical decibel levels
- Factors of noise exposure
- The two major types of hearing protection devices
- Hearing protection at home

## Available training options:

Onsite instructor-led, online, DVD compliance program
